RE: Extension Request Dated May 12, 2006

Dear Mr. Sanicola:

The Missouri Department of Natural Resources (DNR) has reviewed Modine's request for a 30-day extension dated May 12, 2006. Modine's letter requests an extension to submit a work plan to address sampling under the building. The letter states that additional time is necessary to investigate technologies for soil sampling under the building, to determine costs, contractors, and equipment necessary for conducting the sampling, and to determine schedules for completing the work. DNR grants Modine the 30-day extension for submittal of this work plan. The work plan is due to DNR by June 15, 2006.

DNR has reviewed Modine's response regarding the sewer line investigation. DNR is currently deliberating the issue internally and assessing all options. DNR will respond to Modine in more detail at a later date.

If Modine fails to submit the work plan to address sampling under the building by June 15, 2006, Modine will be considered out-of-compliance and DNR will invoke Section XVIII. – Delay in Performance/Stipulated Penalties of the Corrective Action Abatement Order On Consent.
